

**BURNOUT FIRING & PREHEAT FURNACES for CERAMIC MOULDS**

**SOLAR IMPIANTI** has 30 years of experience in the design and manufacture of **Burnout, Firing and Preheat Furnaces** for the lost wax casting processes.

Following your needs we develop **gas & electric solution** like:

- Pushing tunnel furnaces;
- Rotary hearth furnaces;
- Batch furnaces: bogie hearth, fixed-hearth & bell type;
- Ceramic core kilns;
- Recuperative furnaces;
- Afterburners systems.

**SOLAR IMPIANTI** is *MEMBER* of *ICI & EICF*

GAS & ELECTRIC ROTARY FURNACES

BURNOUT, FIRING AND PREHEATING FURNACES

*Investment Casting Furnaces*

Our expertise in many *Investment Casting Foundries* has allowed us to improve upon the technology and accessories for optimizing production, reducing fuel consumption, pollution, and making work easier and safer for the operators.

Leading European and International companies working in the fields of Aerospace, IGT, Engineering and Medical specify **SOLAR IMPIANTI** furnaces for their future developments.
